

# SEVEN WAYS TO SAY THANK YOU!

a look at the difference you are making by supporting the watson family

## ***thank you on behalf of Sergei . . .***

Sergei is a church planting director in Crimea, Ukraine. He is leading the effort to see another twelve churches planted in his region. He will mentor these young and old church planters that will labour over the next three years to see their ministries established. Without you, Sergei would not have the financial resources and training that NLI connects him to, to see Crimea reached.

## ***thank you on behalf of Paul & Mary . . .***

Paul and Mary are from Florida, United States and are currently fundraising to join the NLI team. They have a burden on their hearts to reach out into Europe. Paul will be working in the Balkans region and Mary will be joining the kids leadership development team. Without you, Paul and Mary would not be receiving weekly encouragement and motivation. Nor would they have access to the years of experience and knowledge needed in order to turn a burden into a clear reality!

## ***thank you on behalf of Radim . . .***

Radim is NLI's short term mission coordinator in Czech Republic. He will be mobilizing more than one hundred people a year on mission into the brand new church plants there. Without you Radim would not have the tools that NLI provides to do his job or the extensive network of churches to draw on for missions teams!

## ***thank you on behalf of Vali . . .***

Vali is a church planter in Sarichioi, Romania. Sarichioi is a unique town, as most of the population are Russian speaking. With the support of a mother church in Babadag and a partner

church in Canada, Vali is able to see his dream come to life. Without you Vali would not have the connection and encouragement that comes from being a part of the NLI family!

## ***thank you on behalf of Ladislav & Janna . . .***

Ladislav and Janna oversee the ministry in Slavosovce, Slovakia. Their town has 2000 people in it and is primarily a gypsy community. This pastor couple have recently had to shut down their children's ministry because of receiving *too many* children, over 100 of them! Fortunately through their connection to NLI they have found a solution. Without you Ladislav and Janna would not have the training provided by NLI, giving them the skills to not only minister to the current 100+ children but also reach out to the other 500 in their town!

## ***thank you on behalf of Jesus . . .***

Jesus is a pastor in Bilbao, Spain and is a leader in the Salem churches of the country. Jesus has been instrumental in providing training to many of the young leaders in Spain as well as paving the way to for a church planting movement in the country. Without you, Jesus would not have access to the incredible amount of resources and experience that is NLI.

## ***and of course thank you to YOU . . .***

Thanks to the burden you have in your heart to see people around the world, particularly Europe, reached with the Gospel. Without you many people would be lost!

Sometimes it's important for us to understand the difference one person can have when they make the decision to be a part of the solution . . . YOU are the solution!

When you sponsor this child you support more than a meal and clean drinking water. You get an amazing return on your kingdom investment. Thousands of leaders trained, hundreds of churches planted and numerous missionaries prepared for serving right in your very own backyard.

Lauren Keara Watson was born on 18 October 2006 and what an amazing little girl she is. In the past two years she has been diagnosed with tuberous sclerosis and battled epilepsy. In recent months she has had two to three seizures each day in spite of the doctor's best efforts with medication. For the last seven weeks we have seen absolutely no seizures! Given what the outlook was for her ever becoming seizure free and the nature of TS and its ability to affect a person with multiple types of epilepsy at once we see this as a real answer to prayer. We continue to pray for complete healing from the genetic condition and ask for the evidence of that to be seen in the disappearance of the characteristic white marks on her body. Please continue to pray with us!

Meanwhile please celebrate with us as we continue to seek the good reports. Just today her teachers gave us her very first report card and we were encouraged to read, 'Lauren is a lovely little girl who has settled into nursery well. She is a happy sociable little girl who is forming good relationships with staff and children. She has a fantastic personality and loves fun. Lauren makes the most of every opportunity. I am looking forward to seeing her progress over the next year.'
